Circular Presentation Cards

Our Circular Presentation Cards are a real talking point and a great way of conveying substantially more information than a regular Business Card.

They are available in Full Colour with or without lamination and are supplied flat and pre-creased across the middle.

Please note: If the design of your Circular Presentation Card means colour extends across the fold (on either side of the card) we strongly recommend lamination to minimise the risk of cracking on the fold. Also double sided lamination must be the same laminate on each side.

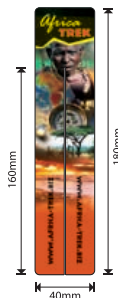

Bookmarks **NEW FOR 2009**

Our Bookmarks are specially designed with a centre split so that they can straddle the marked page and not disappear in the book or fall out. Of course they can also be used as a 'conventional' bookmark.

They come with 3mm rounded corners and are available in Full Colour with or without lamination.

Bookmarks make great promotional products. They are inexpensive but tend to have great longevity getting your message across year after year!
