FSC Grade Material

Our Instant 3Ds™ are a fantastic attention grabber!

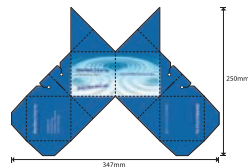

Packed flat inside a standard envelope they spring into three dimensions as soon as they are 'released'. The effect is so unexpected it is certain that your letter will be noticed and your 'gift' will become an office talking point!

Instant 3Ds™ are a great way of differentiating your mail from the rest and making sure that it is your message which is heard!

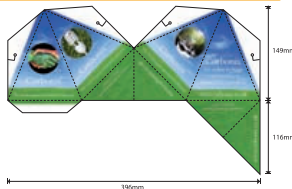

Instant 3Ds™ are printed in Full Colour and either Gloss or Matt laminated. Our standard range consists of two designs, Square and Pyramid. The Square Instant 3D™ is designed to fit in to a DL (1/3rd A4) envelope and the Pyramid Instant 3D™ in to a C5 (A5 size) envelope.

Please note: the 'explosive' nature of our Instant 3Ds™ means they cannot be inserted using a mechanical mailing machine, inserting must be carried out manually. The top and bottom faces of Square and the bottom of Pyramid Instant 3Ds™ are split diagonally. Artwork should be designed with a break across this line (i.e. pictures and text must not run through the split).
