

Playing Cards

We are now able to produce packs of Playing Cards in quantities which were previously completely cost prohibitive.

Playing Cards are an excellent promotional product because of their longevity.

Metallised Core

Our packs are litho printed in Full Colour on 300gm Solar Block Card. This unique material has a metallic core to prevent any possibility of show through. This card meets the exacting requirements of gaming authorities worldwide. The printed Cards are sealer varnished to ensure exceptional quality and playability.

Metallised core eliminates show through.

Our Playing Cards are standard poker card size (3.5" x 2.5 or 89mm x 63mm) with 3mm Round Corners. Packs consist of 54 cards.

Personalisation

We are able to supply Playing Cards personalised on one side (the reverse being the suits of a standard set of Playing Cards). Alternatively, Playing Cards can be fully personalised on both sides, giving scope for a completely new game or a different use entirely.

As standard our Playing Cards are supplied in a plain red box. See opposite for details of Personalised Boxes.
