

## Slapper Bands

Slapper Bands are an innovative new product. In their 'rest state' they are straight, but when they are 'slapped' the spring steel core wraps around to form a band.

On removal the Slapper Band is simply unwound and clicks back to a straight state.

The paper cover which is bonded to the steel core can be printed in One, Two or Full Colour.

Slapper Bands are exceptionally durable and difficult to lose. They are suitable for re-use on numerous occasions.

They were originally designed as admission tickets for venues where clients wished to leave and return to the event without the hassle of finding their ticket. However, the range of applications is wide and varied.

Where will you 'slap' yours!
