

Full Colour Premium Stationery 120gm equest®

For 2009 we are excited to introduce the newly launched equest® paper and board. Fully FSC compliant this new range is being hailed in the industry as the new benchmark in terms of quality and usability. It has several unique features which explain why it is rapidly establishing itself as the new market leader.

Quality

equest® sets the standard in terms of sheet smoothness and whiteness. equest® is guaranteed ink jet and laser compatible and is great to work with. It makes a definite statement when it arrives on someone's desk or is presented as a Business Card.

Being fully FSC compliant means that it can bear the FSC logo to signal that the company presenting the Business Card, Letterhead or Compliment Slip really cares about the environment and has made a positive contribution.

Unique Features

equest® is the only material which is not only watermarked on Letterheads but also on every Compliment Slip. With other brands, where the Compliment Slips are printed on Letterhead paper the watermark ends up being only on every third Compliment Slip - rather disconcerting for a 'quality' product. With equest® you can be sure that every slip will be watermarked like every other.

The matching equest® Business Card stock is a solid 400gm. This means you can now have fabulous stationery and impressive Business Cards at the same time. With the advent of equest®, flimsy Business Card compromises which have previously undermined quality presentations are in the past!

equest® Throughout

equest® can form the start and finish of your printing. The 400gm Business Card material can also be specified for Invitation Cards and Postcards (see page 25) and the same equest® quality can be chosen for your Envelopes (see pages 28 & 29) and Corporate Booklets (see page 62).

Image is important, make sure you present your business in the best possible light.

equest®

Request® by name!

Please Note: 400gm equest®, equest® Envelopes and equest® Booklets are not watermarked.
